

Anja Horvat

Faculty of Mathematics and Physics

Education

I graduated from Physics Education at Faculty of Mathematics and Physics, University of Ljubljana, and am currently finishing master's degree from Physics Education at the same faculty. My research there includes designing courses and lessons on various topics.

Professional Experience

As a science communicator at Hiša eksperimentov, Slovenian science centre, I prepare and conduct various workshops for children aged 5-15 and science shows for audiences of all ages. I have also been a part of making primary school text and workbooks on Physics, Chemistry and Natural Sciences.
